Note: The number of Title I schools statewide for 2010 was taken from the 2009-10 Consolidated Application, Part 2. The number of Title I schools statewide for 2009 was updated using the 2009-10 Consolidated Application, Part 1, that each LEA is responsible for completing annually. The table does not include high schools since the graduation rate data is currently not available to make final AYP determinations for all high schools. Once graduation rate data become available, the AYP status of high schools will be updated.
